

Share your story!

Every child and young person living in Scotland has a story. We want to hear **yours!**

About us

Our name is Together (Scottish Alliance for Children's Rights). We are a charity who want to make things better for babies, children and young people. We want to protect their rights.

What is life like for you?

We want to find out what life is like for babies, children and young people in Scotland. We are going to write a big report with what we find out.

We are gathering stories from under-18s to help us write the report. We want to know about things like life at school, at home, and what it's like to be you. We want to know what you're happy about and if there's anything that worries you.

We will share the report with important decision makers - like the Scottish Government - to help them understand what's going well and what they need to do better.

Get involved!
