### Progress of our State of Children's Rights Report 2024!

We are excited to announce that the Engagement Phase for our State of Children's Rights Report 2024 has come to an end. This marks an important step in the development of the report.

In this phase we had twelve organisations who participated by facilitating story gathering sessions and engaging children and young people across Scotland in various activities. Overall, we have had contributions from over 150 babies, children and young people!

Read our news article thanking all the babies, children and young people involved, and to find out when you can expect to see the launch of the report!

### Upcoming Event: Rights of the Child UK Coalition Conference 2024 - Register your interest!

You can now register your interest for the 2024 Rights of the Child UK Coalition (ROCK) Conference on progressing children's rights across the UK and Jersey. This is scheduled to take place on the 17th September in Edinburgh.

This significant event will bring together key stakeholders from all four UK jurisdictions and Jersey, international experts in children's rights and keynote speakers from both government and non-government backgrounds to engage in meaningful discussions on how we can ensure children's rights are protected, respected and fulfilled across the UK.

The ROCK coalition aligns with the UN Concluding Observations and #RightsOnTrack aims of strengthening children's human rights protections in domestic legislation, at both devolved and UK-wide levels in line with the United Nations Convention on the Rights of the Child (CRC). This event will offer a great opportunity to build networks and partnerships between ROCK members to support proactive advocacy in support of children's human rights in law.

We would like to thank Cattanach for their generous funding for the ROCK Coalition which has made this year's conference possible.
